

FWQA April Luncheon

Three R's of Water Infrastructure - Recovery, Resiliency, Renewal: Moving Toward a Sustainable Infrastructure - Yesterday, Today, and Tomorrow

Featured Speakers

James Hanlon, Former Director
Office of Wastewater Management, U.S. EPA
(see next page for speaker biographies)

Please come and join us as Jim discusses some of the recent changes in EPA regulations and policies; EPA's priorities and how current budget cuts may affect these priorities; and the challenges facing the Agency in the future. Also join in an interactive discussion on what utilities are currently doing to move toward a more sustainable infrastructure and some of the challenges facing utilities in preparing for future climate change.

Speaker Biographies

James Hanlon

Mr. Hanlon retired from civil service in June of 2012, with over 35 years of government service with the US Environmental Protection Agency. He was appointed Director of the Office of Wastewater Management (OWM) in the Office of Water in April 2002. OWM is responsible for the management of the NPDES program which permits municipal and industrial wastewater discharges, and the administration of Federal financial and technical assistance for publicly owned wastewater treatment works.

Mr. Hanlon's career began at the EPA Regional Office in Chicago, Illinois. In 1984, he was appointed to the position of Director, Municipal Construction Division in Washington, DC. MCD was responsible for the management of EPA's national construction grants and state revolving fund programs, providing assistance to municipalities in their wastewater infrastructure construction programs. He was appointed to the position of Deputy Director of the Office of Science and Technology in the Office of Water in 1991. In this capacity, Mr. Hanlon was responsible for the scientific and technical basis of the federal water quality and safe drinking water programs. From January 2001 to April 2002, Mr. Hanlon served as Acting Deputy Assistant Administrator for the Office of Water.

Mr. Hanlon earned a Bachelor of Science Degree in Civil Engineering from the University of Illinois and a Master of Business Administration Degree from the University of Chicago. He is also a registered Professional Engineer in the State of Illinois. Mr. Hanlon is a long time member of the Water Environment Federation and the Federal Water Quality Association.
